ATTENTION: Pollinator Fast-Track Amendment

Subject: Premise 0.5 SC, EPA Reg. No. 432-1362
Request for Amendment of the Terms and Conditions of Registration
and Voluntary Cancellation.

Dear Ms. Eagle,

In accordance with section 6(f) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), BCS respectfully requests that EPA amend the subject registration, to add the following terms and conditions:

25 September 2013

Bayer CropScience
P.O. Box 12014
2 T.W. Alexander Drive
Research Triangle Park,
NC 27709

Tel. 919 549-2421
Fax. 919-549-3969

1. Pursuant to FIFRA section 6(f), BCS respectfully requests voluntary cancellation of the subject product, and that such voluntary cancellation becomes effective January 31, 2014
2. BCS respectfully requests the following provisions for manufacture, sale, distribution, and use of affected products;
 - a. Bayer may manufacture, sell and distribute such affected products until January 31, 2014.
 - b. Existing stocks of the product may be sold, distributed and used by persons other than the registrant until existing stocks have been exhausted, provided that such sale, distribution, and use complies with the EPA-approved label and labeling of the product.
 - c. Any subject product manufactured by BCS after the effective date of cancellation is not included within the definition of permitted existing stocks. In order to avoid misbranding under FIFRA section 2(q)(1)(H) any product manufactured after its effective dates of cancellation must include the following statement on their product labels: "Not Registered for Use in the United States of America."
3. Bayer CropScience irrevocably agrees that any failure to comply with any of the conditions of registration set forth in this letter shall be grounds for cancellation of the affected registrations under FIFRA section 6(e), and that the only issue for resolution in any hearing pursuant to FIFRA section 6(e) shall be whether the particular conditions were satisfied. The Registrant retains the right to contest in any cancellation proceeding under FIFRA section 6(e) whether the Registrant in fact failed to comply with any of the conditions of registration set forth in this letter.

The Section 3 registration affected by this amendment to the terms and conditions of registration is listed in the following table:

EPA Reg. No.	Product Name
432-1362	Premise 0.5 SC

This letter constitutes the irrevocable acceptance by Bayer of each of these terms and conditions and agreement that each of the terms and conditions set forth in this letter shall be effective immediately upon their approval in writing by the Agency.

We request that EPA waive the 180 day public comment period.

If you have any question, please contact me either by telephone at 919-549-2421 or email at jan.brill@bayer.com

Sincerely,

Mr. Jan Brill
Manager, Registration

25 September 2013

Section II Explanation – Continued

Bayer CropScience is submitting an amendment application for the subject product to remove the foliar treatment directions that would require the new pollinator protection labeling as outlined in the August 15, 2013 Letter to Registrants. Proposed changes to the label include the following;

1. On page 1, in the Environmental Hazards section, we changed “visiting” to “foraging” as per EPA preference stated in the Letter to Registrants
2. On page 2, in the Product Facts box, we deleted “No phytotoxicity on a wide range of ornamentals”
3. On page 2, under Where To Apply, we deleted “On established landscape ornamentals around residential and commercial properties.”
4. On page 2, under How to Apply, we deleted “Foliar application to established landscape ornamentals.”
5. On page 2, under Re-Apply, we deleted “Foliar application to established landscape ornamentals.”
6. On page 5, we deleted “mosquitoes” from the pest list (see point 12 below).
7. On page 5, under Where To Apply, we added “non-flowering” before “ground covering”, and deleted “In ant management programs, apply to flower, shrub, or ornamental plant beds where ants may find food or forage.”
8. On pages 5 & 6, under When To Apply, we added “and” before “lawn”, and deleted “and ornamental” in 2 places.
9. On page 6, under Ants we revised the verbiage to remove foliar treatments, but adding soil applications to achieve the desired systemic effect. We also deleted “**Apply a very light mist of the dilute spray, and do not allow excess run off. Treat thoroughly for good coverage including the underside of leaves as these pests often food or rest there.**” We also added the soil treatment direction “**Broadcast applications to the soil or mulched ground cover in landscape plant beds; for optimal control, do not use less than 2 gallons of dilution per 1,000 square feet.**”
10. On page 6, under Occasional invaders we deleted “For best results, treat infested trees and shrubs early in the season. A single foliar application of this product will kill stink bugs feeding on protected plants for 4 weeks. Tree spraying may require ornamental license – check with your local regulator.”
11. On page 7, under Fleas & ticks we revised the language to delete all foliar treatment directions.
12. On page 7, we deleted the Mosquitoes section, because they cannot be treated effectively without foliar treatment.
13. On page 12, we deleted bullet point 5; “A single foliar application of this product will kill stink bugs that feed on protected plants for 4 weeks “
